The proposed ordinance submitted to a referendum vote of the electors by the Council of the City of San Jose by Resolution No. 1558, adopted February 4, 1924, provides that:

Any person who shall have in his possession, knowingly, any writing, paper, or document, representing or being a record of any chance, share, or interest in numbers sold, drawn, or to be drawn, or in what is commonly called "policy," or in what is commonly called "Chinese Lottery," or in the nature of a bet, wager, or insurance, upon the drawing or drawn numbers of any public or private lottery, or any paper, print, writing, numbers, device, policy slip, or Chinese Lottery ticket, or article of any kind such as is commonly used in carrying on, promoting, printing the tickets for, or playing the game commonly called "policy," or the game commonly called "Chinese Lottery," shall be deemed guilty of a misdemeanor, and punishable by imprisonment for not more than six months, or by a fine not exceeding $500.00, or by both such fine and imprisonment.

The possession, by any person other than a public officer, of any writing, paper, or document representing or being a record of any chance, share, or interest in numbers sold, drawn, or to be drawn, or in what is commonly called "policy" or in what is commonly called "Chinese Lottery," or in the nature of a bet, wager, or insurance upon the drawing or drawn numbers of any public or private lottery, or any paper, print, writing, numbers, or device, policy slip, or article of any kind, such as is commonly used in carrying on, promoting, or playing the game commonly called "policy," or the game commonly called "Chinese Lottery," is presumptive evidence of possession thereof knowingly, and in violation of the provisions of Section 1 of this ordinance.

WPA

On April 20th, the President forwarded to Congress his request of 1 billion 500 millions for WPA for the next fiscal year. The President simply said:

> "I recommend that an appropriation of $1,500,000,000 be provided for work relief for the fiscal year 1938, and that it be made available early in June so that its expenditure can be properly planned prior to July 1st."

This amount, if the Federal program is not to be basically changed, will not be sufficient to meet the needs for the full fiscal year 1937-1938. It is estimated that the appropriation will last until the middle of next winter if needy employable workers are not dropped from WPA rolls. Cities generally will regret the fact that the Federal Government has not yet seen fit to put its work program on a full years' basis in order that effective planning of projects would be possible. In addition, the Federal policy of insisting on higher local contributions will mean (as it already has in a few cities) that the character of projects will dangerously approach the so-called "made-work" type.

In all of the recent public discussions regarding Federal appropriations for the WPA program, it is too seldom brought out that as of today the cities (and states) are paying for: (1) 100 per cent of the direct relief costs, (2) all local and state shares on the social security program, (3) approximately 20 per cent of the cost of the WPA program, (4) 55 per cent of the cost of all PWA projects in operation, and (5) Supplemental direct relief to thousands of WPA workers because of the inadequacy of the WPA wages.

PWA

As I advised all cities on April 8th, "PWA has not only been dead for some time, but the corpse has now been partially embalmed". Even if additional allotments are made under the new relief labor grant proposition, many cities would not find it possible to participate. In a meeting with President Roosevelt on March 31st, the Conference made a special plea to the President (and the matter is under consideration) to consider those cities which went to the expense of holding bond elections in a separate category and treat such projects on the regular 45 per cent grant basis. A report compiled at the request of the President by the PWA shows over 50 millions of bond election projects now pending at the PWA.

HOUSING

Hearings have now been held by the Senate Committee on Education and Labor on the Wagner-Steagall Housing Bill. As we go to press, the Committee has not reported the bill to the Senate. Hearings in the House are scheduled to get under way shortly. Should the Wagner Bill be enacted, it is possible that the required funds may be taken from the balance on hand at the PWA (amounting to around 150 millions), thus eliminating the need for additional appropriations at this session.

FEDERAL AID FOR EDUCATION

For the first time Congress has been giving some real consideration to the matter of Federal aid for education. On March 19th, the Senate Committee on Education and Labor, after public hearings, reported out S. 419 providing for grants-in-aid to states. Hearings in the House have been held on a companion measure, H.R. 5962, (2 other House bills were also under consideration -- H.R. 5169 and H.R. 5360). Copies of any of the above bills may be secured by any officials simply by writing us.

CCC

On April 5th the President, in a special message to Congress, proposed the continuation of the Civilian Conservation Corps as a permanent agency of the Federal Government. The President's proposal contemplates a permanent enrollment of 300,000.

FEDERAL TRADE COMMISSION

CINCINNATI has forwarded to the Federal Trade Commission information covering receipt of identical bids on gasoline and water service fittings. Another development of interest to cities was the action of the Commission on March 30th in issuing a complaint alleging that 35 companies producing and selling 90 per cent of the output of cast iron soil pipe in the United States, have, through the use of the Birmingham Plus Pricing System, substantially lessened price competition within the industry and discriminated in price among certain buyers of their products. The complaint charges violation of both the Federal Trade Commission Act and the Robinson-Patman Act. Likewise, the Commission has an amended complaint against the Water Works Valve and Hydrant industry charging said group with unlawful fixing of prices. On behalf of TRENTON, the Conference has recently filed a statement of uniform bids received by that city on valve, hydrants and fittings.

Among items now under investigation by the Commission as a result of complaints filed by the Conference of Mayors are: (1) Calcium Chloride (NEW YORK CITY), (2) Air Compressors (SCHENECTADY), (3) Steel Wire Rope (NEW YORK CITY), (4) Fibre Conduit (MILWAUKEE),and (5) Non-patented Electric Cable (JACKSONVILLE, Fla.).

MORE ON THE BRUSH CASE

With further reference to the recent decision of the United States Supreme Court in the Brush case (holding the salary of the Chief Engineer of the NEW YORK CITY Bureau of Water Supply to be non-taxable by the Federal Government and recognizing water service as a governmental function), the following from Assistant City Attorney Burns of NEW ORLEANS is of interest:

"You may be interested in knowing the fact that the office of the United States Internal Revenue at NEW ORLEANS, under the authority of Blair vs. Byers, 35 Fed. (2) levied an income tax assessment on my salary as First Assistant City Attorney of the City of NEW ORLEANS for the year 1935. The Byers case was decided against the attorney who had been employed by a Board of Waterworks in the City of DES MOINES on the twofold theory that (1) the operation of a Waterworks system was not a governmental function and (2) that the attorney employed by the Board was an independent contractor because he had been employed by resolution of the Board, under a contract of employment (whether oral or written, not stated). However, the Court in passing adversely on the attorney's claim for exemption, made the further statement that "as the facts of the record had not disclosed that the attorney had contracted to give his entire and exclusive time to the Board" he was not an employee of the Board, but rather an independent contractor.

In my own case the government without disclosing its purpose or the existence of the ruling in the Byers case as set forth by the quoted language above, elicited from me the fact, that in the absence of any statutory prohibition, I was practicing law for private clients with whatever limited time I had, apart from the hours devoted to my official duties. Therefore, using the remarks of the Court in the Byers case, the Revenue Department ruled, in effect, I was in the position of an independent contractor with relation to the City of NEW ORLEANS which, under this circumstance became just another client in my law practice. In view of the fact that I have been on the City's payroll since 1925 and part of the political party which kept me in office since that year it was rather amazing to find myself in the position indicated.

There is no doubt in my mind that practically every State and Federal Attorney, more or less, has some private practice and if the unusual ruling of the Revenue Department in my case is to stand, I can visualize a lot of difficulty all over the country. I am convinced that the ruling of the Treasury Department in my case is erroneous, and on the very day that the Supreme Court in Washington over-ruled the Byers case by its decision in the Brush case, I filed an elaborate brief with the local office of the Treasury Department. I do not know how much importance will be attached to the ruling, if the Treasury Department reverses itself after reading my brief, but I do know that if it persists in its ruling it will have wide spread effect."

Other post-Brush case developments will be reported from time to time in future issues of the FEDERAL-CITY NEWS.

REPORTS

Federal Reports of Interest:

U. S. Public Health Service: (1) "The Public Health Program Under the Social Security Act", (2) "Recommendations For A Venereal Disease Control Program in State and Local Health Departments," (3) Report on Market-Milk Supplies of Urban Communities".
PWA: "Public Housing and Taxes", by H. A. Gray, Director, Housing Division. Mr. Gray pleads for partial tax exemption of public housing projects.
U.S. Bureau of Labor Statistics: "Entrance Rates and Full-Time Hours of Common Laborers Employed by Cities", Bulletin 627.

THE PROBLEM OF SERVICE FEES PAID TO CITIES BY PWA HOUSING PROJECTS IN LIEU OF TAXES

Since several cities in which PWA Housing Projects are located have recently raised the question with the Conference of Mayors of a proper agreement with the Federal Government covering the matter of payment of service fees to cities in lieu of taxes, the following statement of facts is given. As indicated previously there are PWA Housing Projects either in operation or underway in about 40 cities of the country. Due to the situation under which, as long as the title to the projects remained vested in the United States Government, it was believed taxes could not be assessed against such projects by cities, the last Congress enacted the George-Healy Act (Public No. 837 -- 74th Congress; approved by the President on June 29, 1936). This statute authorized payments to the cities by the Federal Government in lieu of taxes.

It is reported that to date agreements have been entered into by the PWA in about half of the cities where Federal housing projects have been undertaken. Such agreements have been based on the assessment of the land prior to the acquisition of the property by the Federal Government for the housing project. The value of previous improvements has been disregarded in determining the amount of these service payments. In what might be considered as an explanation of the basis of the agreements which have been made, PWA Housing Director Howard A. Gray has recently declared that low income groups living in blighted areas never have been able to pay for the services they receive from cities; that these areas always have been on the red side of the tax ledgers; and that the slum property purchased by PWA averaged three years delinquent in taxes, until PWA paid the bills at the time of purchase.

HIGHLIGHTS

A marked rural to urban shift in the South's population is reported by the U. S. Bureau of Agricultural Economics.

The Senate Committee on Interstate Commerce ordered reported on April 20th the Norris Resolution (S.J. Res. 95) to the Senate. This resolution, mentioned in the last issue, authorizes the Federal Trade Commission to investigate "propoganda" of private power companies against municipal ownership.

Establishment of rents for Harlem River Homes, PWA's $4,219,000 low-rent housing project in NEW YORK CITY, was recently announced by the PWA. Rents were set at an average of $7 per room per month. This figure includes heat and hot and cold water. Gas and electricity charges will be billed to tenants by the project at an average flat rate of $1.42 per room per month, covering both utilities, plus gas stoves and electrical refrigeration.

Thousands of gallons of water will be saved TOLEDO annually as a result of the recent completion of a WPA pitometer survey and repair project sponsored by the city water department. All leaks in the 566 miles of pipe underground in the city were found and repaired. Velocity of the flow of water in all trunk lines was checked for reference and maps were prepared to show results of the test. Through this survey the city has thumbnail information of where present facilities are inadequate and where additional pipe is needed to meet present demands and future requirements.

The Vinson Stream-Pollution Bill (H.R. 2711), mentioned in the last issue of the Federal-City News, was passed by the House on April 21st. Under this bill a Division of Water-Pollution Control is established in the United States Public Health Service and Federal grants and loans are authorized to cities on sewage-disposal projects. It is noteworthy that 48 per cent of the cities of the United States located on streams are without sewage disposal plants.

STREET TRADES

Due to a number of inquiries recently received by the United States Conference of Mayors on the subject, I am calling to your attention two valuable publications of the United States Children's Bureau:

1. Children's Bureau Chart No. 15 (1929) entitled "State Laws and Local Ordinances Regulating the Street Work of Children".
2. Children's Bureau Publication No. 227 (1935) entitled "Children Engaged in Newspaper and Magazine Selling and Delivering".

DEPARTMENT OF JUSTICE REPORT ON COLLUSION

Following up the information contained both in this issue and prior issues of the FEDERAL-CITY NEWS, the report of Attorney General Homer Cummings to the President on April 27th concerning a proposed revision of the Federal Anti-Trust laws is of interest to cities, and particularly to municipal purchasing agents. As is known, the Federal Government itself has been receiving identical bids on a number of materials, supplies and equipment required by the Government. Attorney General Cumming's report was specifically directed to the problem of identical bids received by Federal agencies seeking to purchase steel products to determine whether court proceedings rather than Federal Trade Commission action should be taken under the Anti-Trust laws. Reinforced steel is one of the items on which cities have experienced trouble. It is, therefore, rather hopeful that the Attorney General reports as follows:

> In my opinion, the time has come for the Federal government to undertake a restatement of the law designed to prevent monopoly and unfair competition. This proceeds from the conviction that the present laws have not operated to give adequate protection to the public against monopolistic practices.
>
> The present machinery of enforcement through the Federal Trade Commission also should be made more adequate and effective, and the devitalizing effect of some of the court interpretations upon its powers should be overcome by legislation.
>
> I therefore recommend that there be set up a committee to study the anti-trust laws as to the adequacy, their enforcement and the desirability of amendment, extension and clarification. The committee should have power to enlist the aid of consultant groups both within and without the government, as the studies will naturally cover a wide area including the relation of anti-monopoly policies to such subjects as patents, taxation, commerce, manufacturing, farming and labor.

SOCIAL SECURITY AND THE HOMEOWNER

At the time that Congress was giving consideration to the passage of the Social Security Act, the United States Conference of Mayors requested an amendment to the Act in order that the state shares of the cost of the program would specifically be paid for out of state government revenues. Although this was the intention of those who framed the law, the bill itself did not make this definitely clear. The Conference of Mayors knew from past experience on other matters that unless the proposed legislation made it mandatory that the state share of the Social Security program costs should be obtained from state revenues that many states would, as they have done in the past, shift a large part of the financial burden back to the localities.

Events of the past two years have shown that the position of the Conference was correct. The most recent reports of the Social Security Board now show, with regard to various provisions of the Social Security Act that the localities are having to bear part if not all of the burden. With regard to Old Age Assistance, these reports show that in Alabama, California, Florida, Idaho, Indiana, Louisiana, Maryland, Massachusetts, Minnesota, Montana, New Jersey, New Hampshire, New York, North Dakota, Oregon, Utah, Washington, Wisconsin and Wyoming this is the case.

Similar situations prevail with regard to those features of the Social Security program covering aid to the blind and aid to the dependent children.

Thus, the fond hopes of those who believed that the states would come in and do their share have been shattered and the general property tax is having to bear a burden that is substantial. This in spite of the fact that tax economists and students of government almost universally have been singing one song -- that the general property tax is already carrying too great a burden.

THE UNITED STATES MUNICIPAL NEWS

A BI-WEEKLY RECORD OF MUNICIPAL PROGRESS

Published by UNITED STATES CONFERENCE OF MAYORS

730 JACKSON PLACE · · · · WASHINGTON, D. C

Paul V. Betters, *Editor* | May 1, 1937 | Vol. 4 No. 9

WE CONTINUE WITH THE NEWS

After receiving suggestions from scores of city officials, our decision is to continue the United States Municipal News in its present form. Typical of all replies received:

"We find the spot news service that is being rendered by the United States Conference of Mayors very valuable. While experience assures us that any magazine edited by the Conference staff will be well worth reading, the fact remains that there are many sources of "long-winded" articles, whereas the news service is practically unique. This means that it would be quite a loss. Our officials enjoy the opportunity to keep informed on municipal progress without wading through a mass of material, while our municipal reference library uses it consistently to obtain current ordinances and reports. I think that there is a place and need for a real municipal magazine, but not in exchange for the United States Municipal News."

NEW ORDINANCES AND LAW - CONTINUED

Massachusetts Supreme Court on April 15th rendered an advisory opinion at the request of the Legislature holding that the Legislative body could authorize use of parking meters. However, the Court said that "a municipality cannot be authorized to turn this plan . . . . . into a business of profit over and above the expense involved in proper regulation."

The draft of a proposed charter amendment providing for a "Pension and Retirement System" is under consideration by CLEVELAND Council.

LOS ANGELES voters on May 4th will pass on a charter amendment establishing Apprenticeship classifications in the city's civil service. This is the first specific proposal of its kind in the country. Another proposed amendment sets up a retirement plan for 6,500 civil service workers who thus far have not been given such protection.

A proposed "building drainage and plumbing code", running into 21 printed pages is being considered by CLEVELAND Council. It contains the rules and regulations under and in conformity to which all building drainage, plumbing and gas supply systems shall be executed.

John Ihlder, Director of the Alley Dwelling Authority of WASHINGTON, writes that: "I believe the best housing codes are those of Iowa, Michigan and the first class cities of Minnesota (MINNEAPOLIS, ST. PAUL and DULUTH)".

Parking stations are liable for automobiles left in their care according to a decision handed down on April 10th by LOS ANGELES' Municipal Judge Ray Brockman. The ruling is expected to be made the subject of a test in the higher courts by LOS ANGELES parking station interests. While parking station operators may limit by contract their liability for theft and damage sustained by parked automobiles, printed matter on the reverse side of an auto parking check does not constitute such a contract, Judge Brockman held. The ruling was in the case of Fireman's Fund Insurance Company vs. Nunn, LOS ANGELES Municipal Court No. 421-242 While the facts are of common occurrence the decision is one of first impression.

MUNICIPAL FINANCE

The following from DETROIT:

To the Honorable, the Common Council:

Gentlemen — At the present time there is no charge made by the City of Detroit for converting coupon bonds of the City of Detroit into fully registered bonds, nor for the transferring of registered bonds from one ownership to another.

However, we have found that oftentimes a registered bond in a large amount is sent into this office by a dealer with the request that it be broken down into many pieces in order that they may readily sell portions of the registered bond in small amounts. Within the short time that it takes for the bond dealer to resell the bond, we are again asked to transfer these bonds to the name of the party who has purchased them thus necessitating the issuance of many bonds and numerous changes in our records.

It is common practice for us to receive bonds in comparatively large amounts to be transferred into as many as fifty single bonds. In a short time these same bonds are returned to us for transfer to other names.

Inasmuch as this multiple transfer of bonds is a service that is requested by a limited group for their own convenience, we deem it advisable that a nominal fee for this service be charged. For that reason the attached amendment to the City Ordinances covering the registration of bonds is herewith presented to your Honorable Body for consideration and approval.

Respectfully submitted,
J. N. DALEY,
Controller.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT.

Section 1. Section 5 of Chapter XVI of the Compiled Ordinances of 1936 is hereby amended to read as follows:

Sec. 5. No charge shall be made by the Controller for the exchange of registered bonds for coupon bonds or for the transfer of registered bonds except when the transfer necessitates the issuing of more than one bond in place of the one presented for transfer. For each additional bond in excess of one there shall be a charge of fifty (50) cents per bond.

Finance officers, particularly assessing officers, will be interested in a bulletin just issued by the New York State Tax Commission (Albany) entitled "Instructions For Preparation of Assessment Rolls".

Governor Lehman of New York has asked for legislation which would authorize cities in New York State to impose a gross receipts tax on utilities in order to secure needed relief funds. NEW YORK CITY now has a 3 per cent gross receipts tax on utilities.

In the light of the recent flood disaster in LOUISVILLE, the following report from Director of Finance Lindsay is of interest:

"As you know, tax collections did not start in LOUISVILLE until the fifth day of February, and from that time through the month of March the Tax Collector collected a total of $5.518,318.40, which represents 70.16 per cent of total levy, and compared with collections last year of

MUNICIPAL FINANCE - CONTINUED

$5,600,997.30 or a per cent of 72.05 of the total of last year's levy. In other words this year's collections are only 1.89 per cent below last year - a showing which I consider quite remarkable and one that exemplifies the spirit of the citizens of LOUISVILLE. These figures refer only to current tax collections and so do not reflect in any way any collection of back taxes occuring this year or last year."

Efficient centralized municipal purchasing makes a contribution to diabetic patients. From the address of Russell Forbes, NEW YORK CITY Commissioner of Purchase, at the last Annual Conference of the United States Conference of Mayors:

"I fully recognize and frankly admit that it is not the function of a purchasing agent to dictate to the doctors in the city hospitals or institutions what type of drugs or medical supplies they should use. However, in the case of insulin the University of Toronto, as you know, controls the license and only four companies in the United States are allowed to produce and market that product. We insisted upon securing competitive bids. In 1934, all bids were uniform. In 1935, one producer cut the price one cent per vial for the various types of insulin used in the city hospitals and institutions. That created a great deal of furor throughout the United States. We have recently secured bids for 1937. E. R. Squibb & Sons, the New York City manufacturers, cut the price seventeen and one-fifth per cent. Immediately E. I. Lilly & Sons, of Indianapolis, reduced the price twenty per cent. The result is that every diabetic patient in the United States is now able, since November 9, 1936, to purchase insulin at one-fifth less than he ever purchased it before from any drug store. That is one of the by-products of consolidating in one department the purchase of supplies, materials and equipment which in the aggregate makes a sizeable total."

MEMPHIS is giving attention to the matter of service charges for sewerage in connection with air-conditioning plants which discharge such a large amount of water into the sewer system. I should be happy to hear from any city which has taken action on this problem.

Finance officers will be interested in getting from City Controller Leavy a copy of a chart showing the organization of the SAN FRANCISCO Controller's Office.

PUBLIC SAFETY AND HEALTH

A new BUFFALO ordinance:

> 18. The Commissioner of Police is hereby authorized to cause to be removed from the streets and public places of the City any vehicle parked therein in violation of any provision of law or ordinance which regulates or prohibits parking in the vicinity of fire hydrants, safety zones, driveways or coal holes and chutes, or in front of school buildings, or blocking crosswalks.

Salaries now being paid in Fire Departments of American cities are tabulated in the April issue of the "International Fire Fighter" (A.F. of L. Building, Washington, D. C.)

1936 Winners in the National Fire Waste Contest: PHILADELPHIA, PROVIDENCE, HARTFORD and LAKEWOOD(Ohio).

ST. LOUIS Fire Department reports reduction of over 36 per cent in fire losses over a four year period.

Official report of the U.S. Bureau of Chemistry and Soils on the recent New London school explosion, as submitted to the Governor of Texas, states "probable cause of the explosion was the ignition of combustible gas accumulated in the open unoccupied area under the first floor by a flash from electrical equipment operating a portable sanding machine in the manual training shop on the lower floor of the school building."

NEW ROCHELLE has adopted the following ordinance:

> Section 301. **Bicycle bell, light and reflector.** Bicycles shall be provided with a bell or other warning device which may be heard at least one hundred feet distant and a reflector visible from and securely fastened to the rear of the vehicle, also a lamp of such illuminating power as to be visible two hundred feet ahead. Such lamp shall be lighted whenever the vehicle is ridden at any time between one-half hour after sunset and one-half hour before sunrise.

PUBLIC SAFETY AND HEALTH - CONTINUED

Your Editor recently received from the Northwestern University Traffic Safety Institute (1827 Orrington Avenue, Evanston, Illinois) copies of a very valuable pamphlet entitled "Accident Prevention Bureaus in Municipal Police Departments". Copies may be secured free of charge by officials upon request to the Institute.

TRENDS IN CITY RELIEF

Reports of the Federal Government show that in February there was an increase from the previous month of January in the number of cases receiving relief of 2.7 per cent. These figures are for 93 of the most important urban areas of the country and these areas contain 29 per cent of the total population of the United States. For the trend from January to February the following cities experienced the highest increase:

City	% of Increase in Number of Cases	% of Increase in Amount of Relief	City	% of Increase in Number of Cases	% of Increase in Amount of Relief
Denver	23	23	Peoria	15	8
Kansas City	13	10	Baltimore	11	6
Flint	53	83	Reading	11	8
Salt Lake City	10	9	Roanoke	14	10

HIGHLIGHTS

As a result of the recent election, LOS ANGELES becomes the first major city in the United States to place important department heads under civil service. Included are the positions of City Engineer, Health Officer, Police Chief, Fire Chief and the General Managers of several departments.

Commission-governed cities will be interested in the administrative reorganization carried out by MEMPHIS.

The City of MILWAUKEE Board of Public Land Commissioners has prepared a report entitled "Studies in the Comparisons of Financial Statistics for the 26 Largest Cities in the United States".

Municipal officials interested in housing should ask to be placed on the mailing list of the NEW YORK CITY Housing Authority (10 East 40th Street). The publications of the Authority are of greatest value.

Many cities continue to restore salary cuts. MEMPHIS is one of the larger cities to take this action.

Reduction in gas rates and elimination of discriminatory rate conditions, amounting to $1,000,600 is reported from LOS ANGELES.

In order to keep all issues of the United States Municipal News on hand for reference purposes (you know we prepare an index at the end of each year), we can send an attractive hand-cover binder for one dollar -- just what it costs us.

City officials of practically every large city make the national offices of the United States Conference of Mayors at 730 Jackson Place their headquarters when they are in Washington on official business. The services and facilities of the Conference are at your disposal at all times. The Executive Committee invites you to utilize them.

EVANGELIST WILLIAMS AT THE WEBSTER STREET M. E. CHURCH.

"Breaking Home Ties."

This cut is a copy of the painting which suggested to Evangelist Williams the subject of his Sunday evening sermon, "Breaking Home Ties." Do not fail to hear him.

"BILLY" WILLIAMS.
The Drummer Evangelist.

Billy William, the Drummer Evangelist, will preach at the Webster M. E. Church next Sunday, June 23, both morning and evening.

The subject at the 11 o'clock service will be "Doubting Thomas" and at 7:30 p. m. "Breaking Home Ties." This talk was suggested to Mr. Williams by the picture, "Breaking Home Ties," one of the three pictures that took the premium at the world's fair at Chicago. This will be the only time to hear Billy Williams as he will preach out of the city every Sunday while he is at home, until he goes East in the early fall.

Last Sabbath Evanglist Williams preached three times at "Carmel by the Sea."

The following poem, written by Mrs. Ada Sprague, was read at the meeting of the Ladies' Aid Society of the Webster Street M. E. Church, on June 5th, and was awarded first prize:

MRS. SPRAGUE'S POEM.

The times were dull, so we formed a plan
For every widow, wife and maid
With her own hands to earn some cash
To help the Webster's Ladies' Aid.

Straightway we all began to work
In ways both wise and funny,
Determined first of all to give
Full value for our money.

One said she'd shave the Pastor's neck,
And one would black his boots,
Another fight the garden weeds
And kill them leaf and roots.

Delicious doughnuts, cakes and pies
Were on the market thrown,
And seamstresses and laundry maids
Were thick about the town.

But these were all too mild for me,
I had heard of finer tricks,
So now, I thought, here is my chance,
I'll enter politics.

For after years of patient strife,
Filled with despair and hope,
The women of this Golden State
Have gained the right to vote.

And so one day, in early morn,
I bravely ventured out,
Intent on proving to the world
We know what we're about.

The very first man that I met,
Helped on these mild ambitions,
By showing that he was resigned
To meet the new conditions.

For while he did not even raise
His hat from off his head,
He gravely and politely spoke,
"Good morning, Judge," he said.

That nearly took my breath away,
But made my heart more light,
For well I knew that now the men
Had recognized our right.

With dignity I made my way
As a citizen of note,
To that sacred precinct called the polls,
And was the first to vote.

There seated at the judge's stand,
'Till near the midnight hour,
I helped to keep the nation safe,
And learned the ballot's power.

I wrote the names of all who came,
Illiterate or scholar,
And thus, to aid the Ladies' Aid,
I earned my silver dollar.

THE RETORT.

Governor Woodrow Wilson, at a dinner in Trenton, was praising the wit of one of the colored janitors of Princeton.

"One day near the winter's end," said Governor Wilson, "a Frenchman nodded toward a grove of denuded trees and said to the janitor: 'How black and dismal those trees look, Pomp—almost as black as yourself, eh?'

"'Yes, sir,' the janitor retorted, 'almost as black as me. But the spring'll soon be here, and then they'll be almost as green as you, sir.'"

Hewitt—He is very absent minded.

Jewett—Yes; if he were to get married and a woman were to take his name he would think he didn't have any left.

BIG TREE PLANTING.

The Forest Service is raising several acres of Big Tree seedlings on the Tahoe National Forest in California, at a more northerly point than any natural Big Tree grove, while the giant redwoods are found in the forests of the Sierras at various points throughout a total range of some 250 miles, in the northern two-thirds of this range there is practically no natural reproduction. It has consequently been a question whether the species would not practically disappear when the present mature trees die.

The most northern existing grove of big trees is on the Tahoe Forest, but about 34 miles southest of the site selected for planting. This site is on a moist flat not far from Neyada City, and is about 2,700 feet above sea level. The first seeding was done in the fall of 1910, with very successful results, and last fall an additional area was planted.

The method used in planting the seed was what was known to foresters as "the seed spot method." Spots about 6 feet apart each way were prepared by pulverizing the earth with a garden hoe. Seeds were then dropped on these spots and lightly pressed in the soil with the foot. The flourishing condition of the young seedlings gives good reason to expect a future growth of big trees at this point. With protection of forests from fire there seems to be no reason why the big tree should disappear, even though scientists regard them as survivals from a past age, botanically speaking.

Mr. Squeams (who is trying very hard to swallow the dainty in question—Very much indeed, thank you.

Little Darling—It was pink once.—From the London Weekly Telegraph.
